SEPTEMBER HEALTH EDUCATION & WELLNESS PROGRAM—INFECTIOUS DISEASES: Infectious disease still remains a serious problem, even with all our modern medical discoveries, technology and advances. Some are just annoying, such as the common cold, while others are deadly, like AIDS. New microbes are evolving and older ones are mutating, making even the most powerful antibiotics and vaccines less effective. September's packet will look at viruses and bacteria, how infectious diseases are contracted and spread, antibiotic resistance, how our immune system fights these diseases, immunization schedules and what you can do to protect yourself from infectious diseases. Packets will be available at all medical facilities in September and upon request to Carol Roth, 867-3414. CHS-005, email **Roth-1, Carol**. (JJ-C)

NUTRITION TIP OF THE WEEK—FROM THE KSC FITNESS CENTERS: Caffeine, and even the chemicals in decaffeinated coffee, can boost the secretion of acid in the stomach. Caffeine causes relaxation of the band of muscle that separates your esophagus and stomach. Stomach acids can back up into your esophagus, causing reflux. If you find coffee to be irritating, eliminate it from your daily diet, or at least limit your consumption. (JJ-C)

EMPLOYEE ASSISTANCE PROGRAM: All employees are reminded that the Employee Assistance Program offers free, confidential counseling to all Kennedy Space Center and Cape Canaveral Air Station employees. Appointments are necessary to ensure adequate time. This program is available Monday through Friday, 7:30 a.m. to 4:00 p.m. Appointments may be made by calling 867-7398. (JJ-C)
